

“Accelerated Christian Education has given me a strong base from which I will reach my goals. The PACE system has taught me the value of having these goals, and equipped me with the tools necessary for life.”

Matthew holds his Bachelor of Science with majors in Mathematics, Computer Science and Physics, and is currently completing his Bachelor of Education.

“I am a graduate of the A.C.E. program and I can say it truly had an impact on my life. It helped solidify me in my walk with the Lord Jesus. I still use the memorization skills that I developed through the monthly Scripture memory. The A.C.E. program taught me a lot about setting goals and accomplishing them. It also taught me how to be efficient with my time. I was blessed by going through the A.C.E. program.”

Cindy

Grad Testimonials

Testimonies from A.C.E. Graduates

"Growing up in Accelerated Christian Education, has given me not only an excellent academic education, but also given me a hunger and thirst for the Word of God. A.C.E. builds strong preparation, study and memorization skills in a student, and we are able to carry those over into a post-secondary education with no problem. I thank the Lord that I was given the opportunity to have attended an A.C.E. school."

Amanda is a Massage Therapist

"Attending an A.C.E. school has impacted my life in several ways. Two of the most important lessons I learned that continue to affect my life are independent study habits and respect for authority. The older I get, the more thankful I am for the Christian education I received that sheltered me from many temptations and gave me a solid foundation upon which to build my life."

Stephanie is currently attending University and has English Literature as her major.

"My A.C.E. experience has given me the foresight to plan ahead and set goals. I found that in college I performed very well independently. I also excelled in Grammar. I truly believe that A.C.E. has a superior English Grammar program. I was at the top of my class in Writing and advanced Grammar usage. Thank you, A.C.E., for helping me succeed."

Becky holds her Bachelor of Communications with a minor in Technical Writing.

"Since graduating from the A.C.E. program, I have had the opportunity and joy of working at the A.C.E. school, which I attended. I thoroughly love both my work and the students. Having gone through the A.C.E. program, I see the importance of a Godly education and constant Biblical values being taught daily. Without having had the opportunity to attend and then work at a Christian school, I don't know where I would be today. I'm so thankful to God for the blessing of the A.C.E. program."

Khristine

"I thank God for my A.C.E. school. I am thankful that I didn't have to go to school worrying that I might be shot by a fellow classmate, or that I might be conned into taking drugs. Instead, I was given an encouraging Christian environment to complete my school work. The most important part of my schooling was that I had the privilege of acknowledging and learning more about God, and the wonderful universe that He has created for me to discover."

Angela

"I attended an A.C.E. school. I appreciate how individualized the program was. The individualized program is something that has benefited me now that I am at University, enrolled in a self-directed program. This is something that is very challenging for the other students in my program; however, I am quite comfortable in this system."

Lydia is currently completing a BScN Nursing Program.
